

Graduating from the box - The Apprentice is a luxury hybrid space

The Apprentice

From £11795 exc vat

The Apprentice benefits from being constructed in the same way as all our garden rooms with structural C16 timbers, although it's designed and built with permitted development guidelines in mind.

It can be sited on the boundary of your premises as it is less than 2.5m in height. The design has soffit overhangs to the front and sides which house down lights to illuminate the building after dark. The beautiful sustainably sourced cedar dresses the building perfectly to create a modern family asset to your home. Ideal for home office use or play room, we can design the Apprentice to suit your exact requirements.

The best of both worlds - it's like having a second home in your garden

The Box

From £11395 exc vat

The Box is structurally the same as The Graduate, but with less height and no overhangs so your garden room can be placed next to a boundary wall. Recycled glass insulation with excellent acoustic suppressant, moisture repellent and fire resistant properties are installed in the floor, walls and ceiling; along with a choice of doors in oak finish or aluminium, bi-fold or sliding and Pilkington K double glazing all add to the low U-Values of this Garden Room. Internal finishes include flush mounted sockets, downlights, switches and external light. The walls and ceiling are finished in white and externally the finish is a maintenance-free sustainably sourced, slow grown, pressure treated Spruce.

No two buildings are the same so feel free to create your own bespoke Contemporary Box.

"The attention to detail and professionalism right from the initial contact to the final day of installation was exemplary; I would recommend CGR's to anyone looking for more outdoor space!"

Sean, architect in Radlett

Reduce your morning commute,
take a few steps towards your
contemporary garden office

The Graduate

From £12295 exc vat

Our original Contemporary Garden Room - Architect designed and built by our master craftsman to the highest standard using only the very best materials. Walls, floor and ceiling cocoon you in sustainably sourced graded structural timber, while building regulation compliant Kingspan insulation, Pilkington K double glazing (solid Oak bi-fold doors) and Western Red Cedar, ensure you of all year round usage.

All internal walls are finished in a colour of your choice, brushed stainless steel sockets, switches and downlights (internal and external) complete the look. Assembled in only 5-7 days, giving you the space you need.

"In the blink of an eye the CGR team created a modern garden room that looks better in real life than the pictures in the brochure!"

Naomi, Streatham

Introducing the sleekest new
addition to our garden rooms

The Alcove

From £11795 exc vat

The Alcove is our sleekest and newest garden room. With vertically clad western red cedar, contemporary minimalist lines, recessed doors forming the alcove and framing the doors, the Alcove creates a minimalist retreat giving you the space to become inspired and creative in. Like all of our buildings every one is built individually as we all have different ideas, locations and use for our buildings. At Contemporary Garden Rooms we turn your ideas into reality and create a space that you'll be proud to own.

"Your creativity and workmanship have made such a difference to our small garden!"

Gena & Mark, Kent
